

MORIMURA BROS., INC - Environmental Policy

<Environmental Basic Philosophy>

MORIMURA BROS., INC. recognizes that environmental problems have become such potentially long-term-issues on global scale, and shall make every possible effort towards realizing a "sustainable development" which is aimed at creating a harmony between social and economic development, and sound environmental conservation.

<Environmental Basic Policy>

In accordance with the Basic Policy shown below, MORIMURA BROS., INC. shall endeavor to realize the Corporate Philosophy through domestic and overseas business activities.

1. Management Philosophy

We shall recognize the importance of environmental problems and strive to manage our business activities by balancing social and economic development, and environmental conservation.

2. Compliance with Environmental Laws and Regulations

We shall comply with various relevant environmental laws and regulations, international rules, as well as all agreements signed by us.

3. Environmental Activities

1) Consideration on the Natural Environment

We shall act considering ecological and environmental protection issues and the preservation of biological diversity.

2) Efficient Utilization of Resources and Energy

We shall recognize the finite nature of resources and energy, and endeavor to make its effective use.

3) Contribution to the Creation of a Recycling-oriented Society

We shall contribute to create a recycling-oriented society by reducing waste, and reusing and recycling resources.

4) Contribution to the Creation of a Low Carbon Society

Based on the recognition that the creation of low carbon society is an urgent issue, we shall engage actively to reduce greenhouse gas emissions.

5) Contribution to Society

We shall join, support and promote activities, which contribute to the resolution of environmental problems.

4. Environmental Management Systems

By utilizing ISO 14001 environmental management systems, we shall strive to accurately address and continuously improve environmental problems.

5. Education and Disclosure of Environmental Policy

We shall familiarize all directors and employees with this Environmental Policy and also disclose it publicly.
